Tirane, Albania · xhoanisadaj@gmail.com · +355 692297298 · [www.github.com/xhoisadaj](https://www.github.com/xhoisadaj)

## EXPERIENCE

### Touch Support

Fullstack Developer

Remote, USA

October 2024 - Present

- Develop and maintain company software platforms using PHP, JavaScript, HTML, and CSS, implementing new features and creating responsive websites that enhance user experience and meet business requirements.
- Integrate AI technologies (ChatGPT and Claude) into applications with specialized modules for file processing, image analysis, and conversation memory context, expanding software capabilities with intelligent automation.
- Automate complex workflows across various business processes, significantly reducing manual effort and improving operational efficiency.
- Collaborate with teams to resolve technical challenges, optimize performance, and deliver solutions that align with business objectives.

### Soft & Solution

Fullstack Developer

Tirane, Albania

October 2022 - April 2024

- Developed business applications using ASP.NET MVC, ASP.NET Web Forms, and C#, focusing on clean code architecture and enhanced user experience while modernizing legacy .NET applications through code restructuring and improved maintainability.
- Optimized Microsoft SQL Server databases with efficient queries and stored procedures to improve application performance, while also managing server configuration and backup systems throughout the development lifecycle.
- Progressed from WordPress development (building client websites with custom themes and SEO optimization) to Laravel/PHP development (creating custom web applications and third-party integrations), demonstrating versatility across multiple technology stacks.
- Collaborated with team members using agile methodologies, participating in regular sprints to deliver incremental improvements while ensuring high code quality and meeting project deadlines.

## EDUCATION
